**Water & Sewer Utility Invoicing**

**At the Mayor and Council meeting of August 14, 2019, an explanation of the recent water and sewer bills was explained in great detail. Some highlights included:**

- **April, May and June 2019 usage was read by radio frequency technology which has been in use since 2007 by our water and sewer team; not a third party vendor, on 7/1/2019.**
- **There appears to have be a glitch in saving all 2038 reads in the Toughbook computer's hard drive and thumb drive which was not recognized until July 17, 2019.**
- **Attempts were made to recover the reads with the assistance of an IT group to no avail.**
- **New reads were taken on 8/1/2019 thus a 120 day bill/invoice was generated.**
- **Some reads bumped the user into the next tier category for water and sewer but many remained in the same tier. See below chart.**
- **The next reading, scheduled for October 1, 2019 will see water usage return to the average or may bump some users down 2 tiers since it will be a 60 day read (August 1 through September 30).**

**We apologize for any inconvenience this may have caused.**
