

Access Cards

The Harbor Office will be issuing access cards to all our tenants. These cards will allow easier access to the storage yard during the period your contract is in effect. To enter the yard, hold the access card about 18" from the proximity reader as you approach the security booth.

The access card will also entitle you to a \$.10 per gallon fuel discount when you present it while purchasing fuel at our fuel dock.

Clean Marina

As the boating season rapidly approaches, please be mindful that the Atlantic Highlands Municipal Marina is designated a "Clean Marina" and to keep this designation, certain rules must be adhered to while preparing your boat.

- Dispose of waste oil and anti-freeze in the recycling tanks located by the harbor shop.
- When bottom sanding and painting, a tarp must be placed on the ground where you are working. When sanding with a disc sander a vacuum attachment is required.
- Spray painting and sand blasting is prohibited.
- When disposing of shrink wrap, please roll and tie it before placing it in a dumpster.
